STRANGE SIGHT—SEVENTY SWARMS OF BEES AT WAR.—Extra Dibble, a well-known citizen of this town, and for many years engaged extensively in the management of bees, communicates to us the following interesting particulars of a battle among his bees:

He has seventy swarms of bees, about equally divided on the east and west sides of his house. On Sunday, Aug. 14, about 3 o'clock, the weather being warm, and the windows open, his house was suddenly filled with bees, which forced the family to flee at once to the neighbors. Mr. D., after getting well protected against his assailants, proceeded to take a survey, and, if possible, learn the cause which had disturbed them. The seventy swarms appeared to be out, and those on one side of the house were arrayed in battle against those on the other side; and such a battle was perhaps never before witnessed. They filled the air, covering a space of more than one acre of ground, and fought desperately for some three hours—not for "spoils," but for conquest;—and while at war no living thing could exist in the vicinity.

They stung a large flock of Shanghai chickens, nearly all of which died, and persons passing along the road-side were obliged to make haste to avoid their stings. A little after 6 o'clock quiet was restored, and the living bees returned to their hives, leaving the slain almost literally covering the ground, since which but few have appeared around the hives, and those apparently stationed as sentinels to watch the enemy. But two young swarms were entirely destroyed, and aside from the terrible slaughter of bees no other injury was done. Neither party was victorious, and they only ceased on the approach of night, and from utter prostration. The occasion of this strange war among the bees is not easily accounted for; and those most conversant with their management never before witnessed or heard of such a spectacle as here narrated.—*Connaut (O.) Reporter.*

Nor So.—The report that Powers' Greek Slave was down with the cholera morbus proves to be unfounded, although we can't help wondering how a young lady who so indecently exposes her person can help catching cold now and then.

MODE OF BURYING LAWYERS.—A gentleman in the country, who had just buried a rich relation, who was an attorney, was complaining to Foote, who was on a visit to him, of the very great expense of a country funeral.

"Why," says Foote, "do you bury your attorneys here?"

"Yes, to be sure we do; how else?"

"Oh, we never do that in London."

"No," said the other, much surprised, "how do you manage?"

"Why, we lay him out in a room over night by himself, lock the room, open the sash, and in the morning he is entirely off."

"Indeed," said the other in amazement, "what becomes of him?"

"Why, that we cannot exactly tell, not being acquainted with supernatural causes. All that we know of the matter is, that there's a strong smell of brimstone in the room the next morning."

MILLERITE STORY.—The following story from the Knickerbocker should be read in a melancholy mood:

A matter of fact old gentleman in New England, whose wife was a thorough "Destructionist," was awakened out of sleep by his possessed rib, one stormy night with—

"Husband! did you hear the noise? It's Gabriel coming! it's the sound of the chariot wheels!"

"O, pshaw, you old fool," replied the good old man. "Do you suppose Gabriel is such an ass as to come on wheels in such good sleighing as this? I tell you it's not him—turn over and go to sleep."

THE REASON WHY "BRUDDER DICKSON" LEFT THE CHURCH.—Mr. Dickson, a colored barber in one of our New England towns, was shaving one of his customers, a respectable citizen, one morning, when a conversation occurred between them respecting Mr. Dickson's former connection with a colored church in that place.

"I believe you are connected with the church in Elm street, Mr. Dickson," said the customer.

"No, sah, not at all."

"What! are you not a member of the African church?"

"Not this year, sah."

"Why did you leave their communion, Mr. Dickson? if I may be permitted to ask."

"Why, I tell you, sah," said Mr. Dickson, strapping a concave razor on the palm of his hand. "It was just like dis—I joined dat church in good faith. I gin ten dollars toward the stated preaching of de gospil, de fust year, and de church peepil all call me *Brudder Dickson*. De second year my business not good, and I only gib him five dollars. Dat year de church peepil call me *Mister Dickson*. Dis razor hurt you, sah."

"No, razor talor well."

"Wall, sah, de third year I feel berry poor—sickness in my family—and I din't gib nuffin for preaching. Well, sah, arter dat dey call me old nigger *Dickson* an' I lef 'em."

"The little darling—he didn't strike Missus Smith's baby a purpus, did he? It was a mere accident, wasn't it dear?"

"Yes, mar, to be sure it was, and if he don't behave himself I'll crack him again, so I will."

A boy, whose general appearance betokened the want of a father's care, being asked what his father followed for a living, replied—

"He's a Methodist by trade, but he don't work at it any more."

New Goods AT PORTER,

For the Spring and Summer Trade, 1853. HEBARD & WALKER, ARE receiving direct from the Importers and Manufacturers a large and splendid assortment of

Goods of all descriptions, suitable for the season, which they offer to the citizens of Porter and vicinity, at prices unusually low. The articles they keep for sale are of the "first water," and no mistake, and will be sold for a very small advance on cost, for CASH or ITS EQUIVALENT ONLY. We would respectfully say to the public that we intend to sell at more moderate profits than the same quality of goods have ever before been sold in Porter. The nimble "sixer" we are after, not the sluggish dollar, for the "sixer" in hand will do us more good than the dollar on the shelves or in the clutches of a miser.

MRS. E. KIDDER'S Cholera, Dysentery and Diarrhea Cordial.

An Immediate and Perfect Remedy for Cholera, Dysentery, Summer Complaints of Children, Diarrhea, Sea-Sickness, General Debility, &c.

WHERE this all-powerful antidote is at hand, Cholera is no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement.

It has been before the public for more than seventeen years, and was the first article made known to the public as an

Immediate and Perfect Cure of the CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same; it acts to cure, even where the disease has advanced to its last stages.

Accounts almost daily reach us of the ravages of the CHOLERA, both at home and abroad, and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries, that a medicine has been discovered possessing the power of checking the progress of the cholera, and eradicating it at the system.

Mrs. Kidder would most respectfully call the attention of the public to this invaluable medicine, known as her

"Cholera, Dysentery and Diarrhea Cordial."

Many thousand lives have been saved by this medicine, when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the cordial at hand, and, if timely administered, but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhea.

This Cordial immediately checks the vomit ing, relieves the pains, stops the Diarrhea, and restores the bowels to a perfectly regular and healthy state, however severe the attack may be, or however low the patient may have become, it invariably restores.

The Severest Cases of Dysentery are immediately counteracted, the pains are allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhea, Either in children or adults, of months or years continuance, is most readily cured with this cordial—it gives them immediate relief, and they very soon recover.

Sea Sickness. It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting, produced from any cause whatever.

Children that are Teething, If inclined to diarrhoea, should always be provided with this medicine, as it will keep the bowels regulated, and keep off the canker. It is wholesome, safe and pleasant to the taste; and children are fond of it, and will take it without trouble or dislike.

For General Debility and Dyspepsia, it is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach.

MRS. E. KIDDER, 100 Court street, Boston, Who is the inventor and sole proprietor. Sold in bottles, holding nearly a pint, for FIFTY CENTS.

KIDDER & BRIGGS, General Agents for the Southern and Western States, 200 Walnut street, Cincinnati, Ohio.

BROWN'S ESSENCE OF Jamaica Ginger.

THIS Essence is warranted to possess, in a concentrated form, all the valuable properties of Jamaica Ginger, and will be found, on trial, an excellent Family Medicine. It is particularly recommended as a tonic, to persons recovering from fever or other diseases, a few drops imparting to the stomach a glow and vigor equal to wine glassful of brandy or other stimulant, without any of the debilitating effects which are sure to follow the use of liquor of any kind; and it is therefore especially serviceable to children and females. To the aged, it will prove a great comfort; to the dyspeptic, and to those who are predisposed to gout or rheumatic affections, it gives great relief; and to the invalid who wishes to reform, but whose stomach is constantly craving the noxious liquor, it is invaluable—giving tone to the digestive organs, and strength to resist temptation; and is consequently a great agent in the cause of temperance.

For sale by L. P. MAGUET, Gallipolis, Ohio. October 14, 1852.—*ly*
